

# meet the contributors

This month's in-the-know team of *BNY* experts

## Vicky Eldridge

Vicky used to edit a trade magazine for people in the cosmetic industry – so she is an undoubted expert in this area. In this issue she tells you all you need to know about semi-permanent makeup. This can be an extremely useful procedure if you want to wake up looking good – and have a busy lifestyle that doesn't give you time to spend in front of a mirror in the morning!

## Patrick Bowler

Cosmetic surgeon Patrick Bowler, medical director of Court House Clinics, talks about some of the newest surgical and non-surgical fat reducing treatments. The clinics offer the latest surgical and non-surgical aesthetic treatments and the doctors are members of the British Association of Cosmetic Doctors. All clinics are registered with the Health Care Commission. Call them on 0845 555 50505 or visit [www.courthouseclinic.com](http://www.courthouseclinic.com)
