

# THE COURT HOUSE CLINIC

The Court House Clinic was founded by leading cosmetic doctor Dr. Patrick Bowler, MB. BS. LRCP. MRCS. DRCOG in 1998. Since that time Court House Clinics have become an established group of national clinics.

All of their clinics are registered with the Healthcare Commission and provide the highest possible standard of care. Their professional team of medical practitioners have helped thousands of people improve their appearance and their confidence. Court House Clinics provides the most advanced and safe surgical and non-surgical treatments which have all been clinically tried and tested. Over the years their success has been shown on numerous TV programmes from GMTV to 10 years younger.

They offer a full range of surgical procedures including breast augmentation, face and brow lifts including the revolutionary new quick recovery thread lift which is performed without hospitalisation under local anaesthetic. Other procedures available with the experienced surgeons include eye bag removal & eyelid reduction, nose reshaping, liposuction and tummy tucks. In addition to their own on-site surgical facilities they work in partnership with specialist private cosmetic surgery hospitals in the North, Midlands and the South of England. Court House Clinics also offer advice and surgical options for both weight loss and hair loss which can prove sensitive issues for some people. All consultations are offered in private surroundings and you will be provided with the best possible advice. Court House Clinics also provide a full range of non-surgical treatments:

including specialist treatments for acne scarring, pigmentation, vascular conditions and lines and wrinkles as well as various laser treatments including hair removal. In addition, they offer minor surgical procedures for the removal of moles, warts, cysts and skin tags as well as a simple treatment to help reduce excessive underarm sweating to give you the confidence to wear a wide range of clothing. For those of you that are concerned about thread and varicose veins they have a Specialist Vascular Surgeon who can expertly assess leg veins with a Doppler ultrasound scan before treating with the most up-to-date treatments.

Court House Clinics provides the most advanced and safe surgical and non-surgical treatments which have all been clinically tried and tested.

*So if you think the Court House Clinics can help you in any way, then why not book in for a free consultation with one of their professional medical practitioners at any one of the clinics based in the South East in Berkshire, Essex, London or Sussex. Their customer care advisors are waiting for your call on 0845 555 50 50 or you may wish to visit their website at [www.courthouseclinics.com](http://www.courthouseclinics.com) for further information on all of the treatments they offer.*
